

Fenimore Landfill Update

Saturday, September 21 – Monday, September 23, 2013

Landfill Site Work

The custom scrubber was ordered on September 12. The manufacturer continues to be onsite with DEP and its other contractors to gather additional information for the construction of the custom scrubber. Site preparation of the utility corridor is continuing.

Air Monitoring

The five H₂S air monitoring stations will continue to operate 24/7. The data is telemetered to DEP for review. DEP and DOH met with the town and the school superintendent on Friday to discuss providing additional H₂S monitors for the community. The town's contractor, Emilcott, is developing the detailed plan that includes location of H₂S monitors and a schedule for their installation.

A Look Ahead

Work continues to bring gas, water, and electricity to the landfill for equipment operations. Gas is scheduled to be installed on Tuesday.

Fenimore Call Center

DEP has established a call center to assist with resident questions. If you wish to file an odor complaint, call 1-877-WARN-DEP, 24/7. If you wish to ask questions without filing an odor complaint, call DEP at (609) 341-2875 during regular business hours (9:00 a.m. – 5:00 p.m., Monday through Friday). On weekends and evenings and holidays, callers can leave a message and their call will be returned. Questions may also be emailed to RoxburyTwpFenimoreQuestions@dep.state.nj.us.
