

Fenimore Landfill Update
Tuesday, September 24, 2013

Landfill Site Work

The custom scrubber was ordered on September 12. While awaiting delivery of the custom scrubber, DEP located and acquired a surplus industrial scrubber for the gas collection and treatment system. The surplus scrubber will take approximately one week to test to determine if it can become operational as an interim solution. [See attached fact sheet for details.](#)

The natural gas service line was installed and has been pressure tested. A regulator and meter are on order.

Air Monitoring

The five H2S air monitoring stations will continue to operate 24/7. The data is telemetered to DEP for review. In addition, the town's contractor, Emilcott, is developing a detailed plan that includes location of four additional H2S monitors and a schedule for their installation.

A Look Ahead

Work continues to bring water and electricity to the landfill for equipment operations.

Fenimore Call Center

DEP has established a call center to assist with resident questions. If you wish to file an odor complaint, call 1-877-WARN-DEP, 24/7. If you wish to ask questions without filing an odor complaint, call DEP at (609) 341-2875 during regular business hours (9:00 a.m. – 5:00 p.m., Monday through Friday). On weekends and evenings and holidays, callers can leave a message and their call will be returned. Questions may also be emailed to RoxburyTwpFenimoreQuestions@dep.state.nj.us.
