

Fenimore Landfill Update

Saturday, November 9 – Tuesday, November 12, 2013

Landfill Site Work

DEP is operating the landfill gas treatment system using the interim scrubber during daylight hours.

Operational testing of the landfill gas treatment system using the custom scrubber continues.

During all operations of the gas collection and treatments systems, stringent protocols are being followed, highly trained personnel are present and air monitoring is conducted.

Site work continues to prepare support areas for the gas treatment operations. This work requires some limited truck traffic to supply materials to the site. In addition, wastewater from the scrubbers will be trucked off the site periodically.

Additional organic carbon filter material is being applied to areas on the top of the landfill to assist in reducing odors.

Air Monitoring

DOH continues to conduct indoor air sampling of public and non-public schools located near the Fenimore landfill. Recent testing revealed non-detectable (N.D.) levels for H₂S and SO₂. See attached indoor air sampling data.

The nine H₂S and three SO₂ air monitoring stations continue to operate 24/7. To date, all SO₂ levels have been well within air quality standards. Live data for both the H₂S and the SO₂ monitors is available at <http://54.235.249.118/guests/greenlight.get.live.data.2a.php>.

A Look Ahead

DEP will continue to operate and test the gas treatment systems during daylight hours. There will likely be visible water vapor (steam) coming from the scrubbers.

For all necessary truck traffic to the site, DEP will continue to work with local officials to ensure that safe traffic controls are in place, utilizing the truck route.

Fenimore Call Center

DEP has established a call center to assist with resident questions. If you wish to file an odor complaint, call 1-877-WARN-DEP, 24/7. If you wish to ask questions without filing an odor complaint, call DEP at (609) 341-2875 during regular business hours (9:00 a.m. – 5:00 p.m., Monday through Friday). On weekends and evenings and holidays, callers can leave a message and their call will be returned. Questions may also be emailed to RoxburyTwpFenimoreQuestions@dep.state.nj.us.
