

## **Fenimore Landfill Update**

Saturday, December 14 – Monday, December 16, 2013

### **Landfill Site Work**

The custom scrubber commenced 24/7 operations on Thursday, December 12. DEP will continue to monitor the emissions from the system to ensure it is operating safely.

The interim scrubber went down on Friday and is being repaired. It was not operating over the weekend. All gas from the landfill was directed to the custom scrubber.

A shed that will house the site's water meter has been delivered and placed on the site.

Construction continues for water service to replace the temporary water supply.

### **Air Monitoring**

The nine H<sub>2</sub>S and three SO<sub>2</sub> air monitoring stations continue to operate 24/7. To date, all SO<sub>2</sub> levels have been well within air quality standards. Live data for both the H<sub>2</sub>S and the SO<sub>2</sub> monitors is available at <http://54.235.249.118/guests/greenlight.get.live.data.2a.php>.

### **A Look Ahead**

Limited truck traffic is needed to supply materials to the site. In addition, wastewater from the scrubbers will be trucked off the site periodically. For all necessary truck traffic, DEP will continue to work with local officials to ensure that safe traffic controls are in place utilizing the truck route.

### **Fenimore Call Center**

DEP has established a call center to assist with resident questions. If you wish to file an odor complaint, call 1-877-WARN-DEP, 24/7. If you wish to ask questions without filing an odor complaint, call DEP at (609) 341-2875 during regular business hours (9:00 a.m. – 5:00 p.m., Monday through Friday). On weekends and evenings and holidays, callers can leave a message and their calls will be returned. Questions may also be emailed to [RoxburyTwpFenimoreQuestions@dep.state.nj.us](mailto:RoxburyTwpFenimoreQuestions@dep.state.nj.us).
