

Fenimore Landfill Update

Thursday, December 19, 2013

Landfill Site Work

The custom scrubber commenced 24/7 operations on Thursday, December 12. DEP will continue to monitor the emissions from the system to ensure it is operating safely.

The repairs to the interim scrubber are not yet complete and will continue into Friday. During these repairs, all gas from the landfill is being directed to the custom scrubber.

Construction continues for water service to replace the temporary water supply.

Air Monitoring

The nine H₂S and three SO₂ air monitoring stations continue to operate 24/7. To date, all SO₂ levels have been well within air quality standards. Live data for both the H₂S and the SO₂ monitors is available at <http://54.235.249.118/guests/greenlight.get.live.data.2a.php>.

A Look Ahead

Limited truck traffic is needed to supply materials to the site. In addition, wastewater from the scrubbers will be trucked off the site periodically. For all necessary truck traffic, DEP will continue to work with local officials to ensure that safe traffic controls are in place utilizing the truck route.

Fenimore Call Center

DEP has established a call center to assist with resident questions. If you wish to file an odor complaint, call 1-877-WARN-DEP, 24/7. If you wish to ask questions without filing an odor complaint, call DEP at (609) 341-2875 during regular business hours (9:00 a.m. – 5:00 p.m., Monday through Friday). On weekends and evenings and holidays, callers can leave a message and their calls will be returned. Questions may also be emailed to RoxburyTwpFenimoreQuestions@dep.state.nj.us.
