

## **Fenimore Landfill Update**

Thursday, March 6, 2014

### **Landfill Site Work**

The custom treatment system continues to operate 24 hours a day. All gas collected from the landfill is being directed to the custom system. DEP continues to monitor the emissions from the system to ensure it is operating safely.

The second oxidizer will be held in reserve to be available if needed.

### **Air Monitoring**

The nine H<sub>2</sub>S and three SO<sub>2</sub> air monitoring stations continue to operate 24/7. To date, all SO<sub>2</sub> levels have been well within air quality standards. Live data for both the H<sub>2</sub>S and the SO<sub>2</sub> monitors is available at <http://54.235.249.118/guests/greenlight.get.live.data.2a.php>.

DEP and Emilcott are continuing to work together to investigate the cause of reported spikes.

### **A Look Ahead**

Limited truck traffic is needed to supply materials to the site. In addition, wastewater from the scrubbers will be trucked off the site periodically. For all necessary truck traffic, DEP will continue to work with local officials to ensure that safe traffic controls are in place utilizing the truck route.

### **Fenimore Call Center**

DEP has established a call center to assist with resident questions. If you wish to file an odor complaint, call 1-877-WARN-DEP, 24/7. If you wish to ask questions without filing an odor complaint, call DEP at (609) 341-2875 during regular business hours (9:00 a.m. – 5:00 p.m., Monday through Friday). On weekends, evenings and holidays, callers can leave a message and their calls will be returned. Questions may also be emailed to [RoxburyTwpFenimoreQuestions@dep.state.nj.us](mailto:RoxburyTwpFenimoreQuestions@dep.state.nj.us).
