Things you need to know

This is not a competitive race. The Color Fun Run is about a fun-filled day for participation of all levels. That is why we offer to walk or run. You are welcome to time yourself but don't expect this to be one of your faster runs. Runners can get held up while crossing through the color blasts stations.

Kids and strollers are welcome. We want kids to be a part of this! We recommend that your kids are properly protected with sunglasses and for toddlers and infants we suggest something to cover their mouths. The powdered paint is non-toxic cornstarch but it could irritate the smaller kids more than us.

Dogs and bikes are prohibited. For the safety of all our runners and for the dogs, NO DOGS or bikes will be allowed on the race course.

There is no age limit for younger or older runners. However, due to time constraints the run/walk course is recommended for runners/walkers that are 7 years or older.

The tossing of color does not hurt in any way. The paint is a very fine cornstarch powder that will simply be scooped out of a large bucket and tossed. We don't use paint guns or anything that could bruise.

To keep color from getting in your eyes or mouth, follow these tips. The colors are 99% food-grade cornstarch, 1% natural colorant and are 100% natural and safe. As with any substance, you want to keep it out of your eyes. You may wear glasses or goggles as you run and a bandana or dust mask for your mouth. This is especially recommended for our younger runners/walkers who won't know to close their mouths near a color station.

The color does mostly wash out after the event, but some of it can stain. As with anything, the sooner you wash it the better. We suggest you wear items that you wouldn't mind getting the color on.

If you would like to preserve the color in your running shirt, spray it with vinegar and iron it before you wash it.

If you want to avoid getting the color in your car, we recommend bringing some towels to place on your car seat.

If you want to take photos while running through the color, we recommend covering camera/phones with clear plastic. We are not responsible for any lost or damaged items.
